EDUCATION

B.E. Computer Science and Engineering	Sri Eshwar College of Engineering	C G P A : 7.3 / 10.0	2024-2028
Higher Secondary (Class XII)	AKR Academy CBSE School	70.2%	2022-2024
Secondary (Class X)	AKR Academy CBSE School	81.2 %	2021-2022

INTERNSHIP EXPERIENCES

Algotutor(WebnoX) - Flutter intership

During my internship, I learned the fundamentals of Flutter and Dart through hands-on development. I applied these concepts by building Ascend, a mobile application focused on productivity and personal growth. I worked on the app's UI, navigation, state management, and core application features using Flutter. This project helped me transition from learning Flutter concepts to building a complete real-world application.

2025

PROJECTS

Ascend [GitHub](#) Aug 2026

Tech Stack: Flutter (Dart), Riverpod, go_router, Firebase Auth & Cloud Firestore, fl_chart, flutter_local_notifications, and shared_preferences.

Brief: Ascend is a gamified productivity app that combines task management and a Pomodoro-style focus timer with an XP/level/streak/achievement system to make consistency feel rewarding.

Broke No More [GitHub](#) Aug 2026

Tech Stack: Flutter (Dart) + Riverpod for state, Hive for local persistence — fully offline, no backend.

Brief: Broke No More is a gamified personal expense tracker (Android/iOS) where manually logging transactions earns XP, builds streaks, and unlocks quests/badges — all data stored locally, no cloud sync or auth.

Musica [GitHub](#) Jan 2026

Tech Stack: Tech stack: Flutter (Dart) cross-platform app with just_audio/audio_service for playback, on_audio_query/audiotags for metadata, flutter_riverpod for state, and isar as the local database.

Brief: A premium, offline-first music player app (Android/iOS/desktop) with a dark glassmorphism UI, local audio library scanning, and metadata-driven playback.

ACHIEVEMENTS

- Secured Top 10 in Tech Sprint 2026 (Google Developer Groups) 2026
- Leetcode 200 days, 100 days, 50 days badges from 2025 and 2026 2026
- Participated in 9+ hackathons and competitions. 2026
- Earned Kage Basic & Intermediate Certificates, Oracle Java Foundations & HackerRank SQL certifications. 2026

CODING PROFILES

- LeetCode – 500+ Problems Solved | Max Contest Rating: 1705 | Top 16.72% | [Profile](#)
- SkillRack – 1367 Problems Solved | Global Rank: 11786 | [Profile](#)

CERTIFICATIONS

Oracle Java Foundations	Oracle	2025
AWS Cloud Practitioner (CLF-Co2) Practice Exam	AWS	2026
SQL (Basic & Intermediate)	HackerRank	2025
Mastering Data Structures & Algorithms (C/C++)	Udemy	2025
Programming Fundamentals (C/C++)	IIT Bombay	2024

TECHNICAL SKILLS

Languages	Dart • C++ • Java • Python • JavaScript • SQL • HTML • CSS • C
Technologies/Frameworks	Flutter • Node.js • Express.js • React • Spring Boot • Flask • Django • React Native
Databases	MongoDB • MySQL • Firebase Firestore • PostgreSQL
Tools & Platforms	Git • GitHub • Docker • Kubernetes • Postman • Vercel • Render • Railway • Android Studio
Core Concepts	DSA • OOP • DBMS • REST APIs • JWT Authentication • RBAC
